# Five questions to ask **BEFORE** signing up for granite counter tops

1. Are the slabs you choose the actual slabs you will get?
2. How many seams will there be and where will they be located?
3. Will you need to remove your countertops **BEFORE** templating?
4. Will you pay extra to have your old counters removed and disposed of?
5. Will you re-polish dull spots on the surface?

## More questions

- Can I see the layout of my templates?
- Do you blend the pattern on stone that needs blending?
- Do you have a guarantee on stone installations?
- Do you charge extra to seal stone that requires sealer?
- Do you refinish underneath of large overhangs?

## Five Red Flags

- Minimum prices even if you have a much smaller kitchen than minimum advertised
- Unreasonable delivery schedules
- Samples instead of full slabs
- Slabs with dull spots and a faded look (commercial grade stone)
- Multiple bad reviews on web searches
